

Washington C. H., O., May 1.—St. Andrews Episcopal church is without a pastor. Rev. David M. Barre, the former rector, having enlisted in the officers' reserve corps of Columbus, is offered to serve in any office but chaplain. He has military experience and comes of a military family.

Rev. Mr. Barre for two years was pastor of St. Luke's Episcopal church in Granville and is well known to many Newark people. He has occupied the pulpit at Trinity church, this city, several times during the absence of the rector, Rev. P. Franklin.

SQUIRE JONES IS LATEST ENTRY IN MAYORALTY RACE

D. M. Jones, now serving his second term as a justice of the peace of Newark township, today announced his candidacy for the mayoralty nomination on the Republican ticket. Justice Jones will have two years to serve in office from Jan. 1, 1918, but states that he has been opportunely by a number of friends to enter the primaries.

There are two other Republican candidates to date, David Murphy and the present Mayor, Royal C. Bigbee, who is seeking a third term. It is said that friends of Justice Fletcher S. Scott are endeavoring to have him enter the race but up until the present have not convinced him to shio his hat into the political arena as he will again be a candidate for justice of the peace.

Councilman Watson C. Seward it is said, may enter the contest for the Republican nomination to fill the chair of the city's chief executive, and as the time of filing nomination papers does not close until June 15, there is still plenty of time for others.

There are only two candidates to date who have taken out papers for the Democratic mayoralty nomination, Harry D. Hale and Augustus Atherton.

AMERICA GIVES ENGLAND SHIPS NEEDED BADLY

(Continued From Page 1)

present British construction and the estimated American plan cannot keep pace with the present rate of destruction. Both must be speeded up very appreciably if the seas are to be kept open. The war has resolved itself into a race between the efficiency of the British and American ship yards and the German submarine.

The balancing factor in the world struggle is the tonnage the United States can supply. Only in case this is large can the present military service and food supply be continued. This is the most vitally serious problem which cannot be exaggerated.

"The United States," said Lord Percy, "is one of the countries that is absolutely self-sufficient in ship building. You have here the men, the material, the inventiveness. France, Italy and Japan also are building somewhat but unlike this country must-use ships to build ships through the need of importing raw materials.

"The shipping problem is not only a matter of tonnage but equally a matter of how fast that tonnage is used. Every method possible is being used to save shipping for the vital purposes and keep it away from non-essentials. Each of the allied nations has instituted a national shipping board while over them all is the general shipping board, sitting in London, which attempts to harmonize the demands on shipping and direct it to the most efficient uses. For months we have been cutting down the need for ships until practically every vessel is now on an important mission. The British empire would be quite comfortable alone if it were not necessary to consider the needs of its allies and the neutrals. For instance, there are ten million tons of exportable wheat in the empire which could easily supply England's needs of six million tons unless we were under the rigid obligation to supply our allies. France alone has been allotted 15 per cent of our total tonnage for direct military service, including 200 vessels carrying oats, wheat and steel from the United States alone."

Lord Percy gave figures to show that at the end of March 22 per cent of England's tonnage was in direct naval and military service; 34 per cent under registration for government supplies; 22 per cent reserved through the big lines for quasi government work and only 22 per cent subject to the general needs of industry.

The problem of furnishing supplies for the allied peoples and armies and of finding ships for transporting them were taken up today at the first formal conference of the British war commission with American government officials.

The British were represented by Foreign Secretary Balfour, Sir Eric Drummond, his private secretary, and Sir Richard Crawford, of the British embassy. American officials present were Secretaries Lansing and Redfield and Chairman Denman of the shipping board.

The allied commissioners are expected to present a definite plan for handling exports to give the countries most in need of supplies what they must have to keep their military strength on the war lines.

It is considered likely that a plan will be worked out under which supplies and ships for all the allies will be directed from Washington. This could be accomplished by establishing a permanent international commission here or by increasing the allied embassy staffs to work with the American government in meeting situations as they arise.

CARNEGIE TECH. SENDS BIG SQUAD TO ARMY SERVICE

A big steel coach load of college students from the Carnegie Tech school at Pittsburgh passed through this city last evening on their way to Columbus, where they will be fitted out and sworn into the service of the government, and will leave in a few days for Ft. Bliss, Texas, to join a cavalry regiment. The boys all ranged between the ages of 20 and 24 and were a manly set of youngsters. That they will make good soldiers there can be no doubt.

vivors of the Vacuum who were landed at an obscure point out of touch with the telegraph service. The early report did not indicate how many American gunners were among the survivors. Affidavits will be obtained from the men at Liverpool by the American consul and then they will be sent back to America.

It is not believed here that the missing gunners were taken prisoners although it is possible that the master and lieutenant may have been taken aboard the submarine. The whole crew however, would have been too many visitors to have been comfortably accommodated on a submarine.

The probability is that the missing boat load was lost as life boats of the size carried by the Vacuum, according to naval men, would have been overloaded with more than a dozen men on board.

WOMAN'S PREMONITION SAVED CAPTAIN'S LIFE

(Special to The Advocate)

New York, May 1.—A woman's premonition is said to have been responsible for the withdrawal of Captain Wm. McKay from command of the American oil tank steamer Vacuum which was sunk by a German submarine Saturday.

According to an official in the shipping commissioner's office here, Captain McKay was preparing to board the vessel when his wife told him she had a positive foreboding of misfortune to the Vacuum. So insistently did Mrs. McKay plead with her husband to remain at home that he finally consented, although he said he did not attach any importance to her fears. It was then that Captain S. S. Harris took Captain McKay's place. He and others of the ship's company are reported missing.

20 MEN APPLY FOR POSITION TO RUN COUNTY SCHOOLS

Twenty men have applied for the position of Superintendent of County Schools, which will be vacant in August, by the expiration of the two-year term of the incumbent, Elmer W. Jordan.

The County Board of Education will meet the third Monday in May at the offices 408-409 Newark at the board are P. F. Koontz, Walter Taafel, C. M. Mauger, C. S. Brown and Leonard Stevens.

The term of the superintendent is determined by this board, and the man elected will be elected for one year instead of a longer period.

Among the prominent candidates for the position are W. F. Parks of Oberlin; J. R. Clark, Columbus; R. L. Morton, Frankfort, O.; G. E. Ray, Massillon; O. T. Jacobs, Wellington, and W. L. Atwell, Cardington.

MAY DAY STRIKE IS GENERAL IN FRONTIER TOWNS

(Continued From Page 1)

Austria obscures the situation in Sweden, where a great nationwide demonstration by the workers was also planned for today. Since the outbreak of a couple of weeks ago when rioting took place in Stockholm the only news received as to conditions in Sweden has been the bare announcement that a general strike had been ordered by the labor leaders for May Day, coupled with a warning to the government against undue interference.

On the fighting front in France, little change has taken place for some days. The French are striking hard in Champagne and have made some gains but without, as far as the official communications go, materially altering the situation. The fighting in Macedonia, which was resumed on a wide front last week is still in progress but information regarding it remains too indefinite to judge whether the allies are engaged in a major offensive. In Mesopotamia the British are pushing steadily forward but here, too, details are too meager to throw a light on the extent of the campaign or the immediate objective of the British commanders.

AUDITOR IS SWAMPED WITH TAX RETURNS

Yesterday was the last day to receive tax returns at the Auditor's office. The Auditor's office was kept busy taking them in. Auditor J. W. To Save and Beautify

The best thing to use a liquid which you can most any drug store.

A small amount, only teapoonfuls will cleanse and scalp thoroughly. Simply moisten the water, rub in a little massage well and then rinse. The hair dries evenly, and is fresh looking, fluffy, wavy, and easy. Besides, it loosens and dust, dirt and dandruff.

Do not use cheap soap prepared shampoos if you keep your scalp clean and soft and beautiful.

GERMAN WIRELESS IN VENEZUELA IS SEIZED BY GOVT.

[Associated Press Correspondence]
Caracas, Venezuela, April 22.—The confiscation by the government of a wireless outfit found in the trunk of a German who recently arrived at Puerto Cabello is a fresh illustration that the great activity among German agents and residents in Venezuela. Germans form an important part of the population of the republic and have lately been using all their influence to induce Venezuela to maintain its neutrality.

The owner of the confiscated wireless outfit purchased a plot of land in the neighborhood of the coast shortly after his arrival and another German has just paid a high price for a similar piece of property east of the port of La Guayra. To the west of the port there are several coffee and banana estates owned by Germans which could afford facilities for submarine bases if their owners were that way inclined.

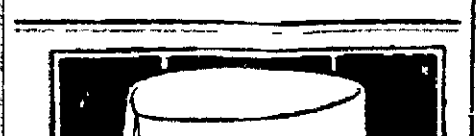

The leading merchants of this republic are mostly Germans and the importation of dry goods and the export of coffee is almost entirely in their hands. These merchants were hard hit at the beginning of the war but were aided by a New York port house with generous credits and substantial advance of funds. They also succeeded in obtaining, in one way or another, supplies of dry goods and hardware even from England, and through

third parties disposed of their coffee in Europe.

Even the agents of the Red D. Steamship Line an American concern, are of German blood.

What will happen to Curacao if Holland insists on refusing to allow armed merchantmen to enter her ports is a vital question to the inhabitants of that colony. The island's prosperity consists almost exclusively of the business brought by the Red D. Steamers and it is presumed that these will eventually be armed.

President-elect Gomez is understood to have large sums of money on deposit in Hamburg banks and German influence is credited with being responsible for the non-commercial reply of the government to the note from Washington advising of the severance of diplomatic relations with Germany. Later, however, in spite of the presence of several German sympathizers in the cabinet of Acting President Marquez Bustillos the Venezuelan administration assured President Wilson of its unqualified approval of his action in the defense of moral rights.

CELEBRATE 50TH ANNIVERSARY OF DORSEY WEDDING

[Special to The Advocate]
Granville, O., May 1.—The observance of the 50th anniversary of the marriage of Mr. and Mrs. Edwin J. Dorsey at their hospitable home in West Broadway, Monday afternoon, April 30th, was one of the most interesting and delightful social functions of the entire year, and the happy couple received the felicitations of over 200 friends between the hours of 2 and 5 p. m. Despite the rain which fell at intervals all the afternoon there was no cessation in the steady stream of callers. The rooms were veritable bowers of golden bloom, roses, tulips, daffodils, buttercups, with masses of pink and white roses, carnations, sweet peas and stately lilies all sent as tributes of affection by friends. In the receiving line were Mr. and Mrs. Dorsey, the bride of fifty years becomingly gowned in white silk and carrying a formal bouquet of white and pink rose buds. Dr. George A. Dorsey, their eldest son, Mrs. Ida Grove Jones, Mrs. Belle Grove Wright, her sisters, and Mr. Amos Grove of Newark, her brother. Pretty girls from the Chi Psi Delta sorority presided in turn at the punch bowl placed in the bay window of the living room. Mrs. August Odebrecht and Mrs. Charles Robinson invited the guests into the dining room, where from a table centered with yellow daffodils with fluffy bows of gold maline a dainty two-course luncheon was served by other girls of the Phi Psi sorority, and souvenirs of tiny gold colored bows were bestowed upon the guests by Mrs. W. H. Kussmaul. Assistant hostesses were: Mrs. C. W. Chamberlain, Mrs. R. S. Colwell, Mrs. C. L. Williams, Mrs. Margaret Halderman, Mrs. Millard Brelsford. Valuable presents were received, among them \$50 in gold from each of their sons, Sigma Chi and Beta Theta Pi fraternities, which their sons affiliated in college, were invited as were many from Columbus, Newark, Hebron, Kirkersville and the surrounding community. No family in Granville, perhaps, enjoys so wide a popularity in this community as does the Dorsey family. Their home has ever been hospitably open and the hosts have dispensed abounding good cheer to hundreds of friends. They came to Granville in 1888 from the "old College farm" on the Columbus road and since that time have been important factors in the business and social life of the place, where old and young, men and women, delighted to do them honor on the attainment of their jubilee. 50 years of married life, which have been years of prosperity and happiness. Their three sons have achieved success, each in a different line of work. Dr. George A. as an explorer and anthropologist, Dr. Herbert G. as a scientist who is doing original research work and electrical designing and C. W. Dorsey, soil expert for the government is now operating a great lemon orchard in California. Athletics at Denison have yielded to the superior claims of compulsory military training, the only feature remaining being the spring football practice. But as this sport doubtless is as valuable as a hardening process as are forced marches and gun drills, it is permitted to stay. Dr. George A. Dorsey, who attended the reception in observance of the fiftieth anniversary of the wedding of his parents, Mr. and Mrs. E. J. Dorsey left last evening for Washington, D. C.

PREPARE PLANT AT ZANESVILLE FOR TALKING MACHINES

The necessary stock has been sold to insure the moving of the Kettrophone Talking Machine company of Newark to Zanesville. According to information given out by the Zanesville Chamber of Commerce, work will be commenced tomorrow on the plant of the former Kimble Bent Woods Works at Zanesville which will be the home of the talking machine company. The plant with eight acres of land was purchased Monday by the Chamber of Commerce there for \$11,000 and with the exception of three and a half acres fronting on the railroad and held for another industry will be turned over to the Newark concern. From the beginning 90 skilled men will be employed.

OTHERS RECEIVE BLANKS TO ADMIT OFFICER RECRUITS

Messrs. E. C. Wright of the First National bank and C. W. Miller of the Trust building have been designated by the Columbus Headquarters for Military training to distribute application blanks and information for the Ft. Benjamin Harrison military training camp. Among others having blanks are Mayor R. C. Bigbee, T. A. Feeney, of the Trust Building and C. W. Montgomery of the Trust Building.

PEACE DEMONSTRATION.
[Associated Press Telegram]

The demonstration consisted of a parade and meeting, is said to be designed to obtain support of the policies of the European Socialists toward peace.

Your last chance to buy the Encyclopaedia Britannica, printed on genuine India paper, ends in 2 or at the very latest 3 weeks from today.

We are close to the day when we must stop taking orders. The few remaining sets of the Britannica are selling so fast that if you want to be sure of getting a set, **NOW** is the time to order it.

And it is **NOW** or **NEVER** if you desire to own this great work in its most convenient form—the popular "Handy Volume" Issue, printed on genuine India paper.

These remaining sets are the *very last in the whole world*, printed on the famous India paper, that can be offered.

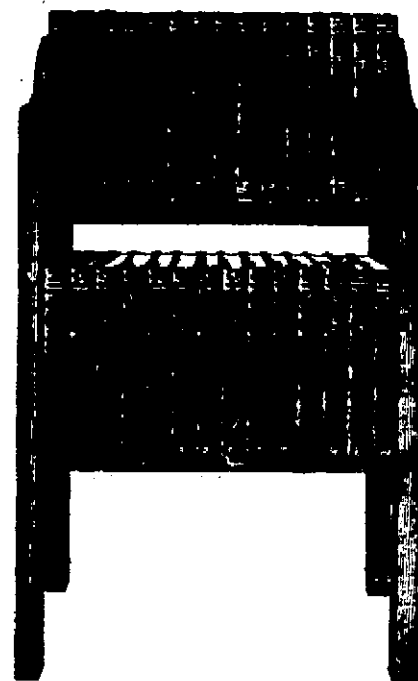

They are printed on the last India paper manufactured before the war made it impossible to get the special kind of flax from Belgium, Ireland and Germany and hemp from Russia for the making of India paper. No more of these raw materials is available, or will be procurable for years after the war, for the making of India paper.

And the only sets of the Britannica for sale anywhere in the world, printed on this beautiful paper, are right here in America.

Orders have greatly increased in the last month—the sales have jumped to an average of more than 2,000 sets a week. This fact makes it certain that the few remaining sets will not last beyond 2 or 3 weeks.

If you know the Britannica, know how useful it will be to you, and are quite sure you should own a set, order it immediately. This is your only assurance of getting it.

When the last day is announced on which we can accept orders with any prospect of filling them, it is reasonable to expect a great rush of orders to come in at the eleventh hour. This was shown last June when a slight increase in the price was made on account of the increase in the cost of bookmaking materials, and we received over 17,000 orders after the last day.

NOW or NEVER!

We are giving you warning **NOW** to save you any disappointment in never getting one of these *very last sets*.

In this case when the last set is gone you will not be able to buy a first-hand set of this great library of knowledge, printed on genuine India paper, at any price.

Today in England, Australia and other countries people who failed to buy the Britannica when they had the same chance that you have now are advertising for it and have to pay whatever premium may be put

on it by any owner who can be induced to sell his set.

Don't wait until the eleventh hour. Don't put off ordering until "tomorrow." Take the time today to send in the "reserve order" coupon and then you will be *sure* of getting a set.

You should satisfy yourself that the Britannica will be useful to you in your business or work, increasing your mental efficiency and earning power. You still have a chance to know what the Britannica is and what it will mean to you.

Go at once to

The A. L. Norton Co.
26 ARCADE

and examine the Britannica for yourself. You can there see a complete set, investigate its contents in your own way, run through the index of 500,000 facts and learn all about this great work. You can compare the large-size, higher-price Cambridge issue and the popular "Handy Volume" Issue, which sells for about 60% less. You can also select the style of binding you prefer.

We don't want any one to order the Britannica unless he is positive that it will be useful to him. We could sell many thousands more sets if more India paper for printing them could be obtained.

Hence we desire that every single one of the remaining sets shall go to men and women who will find the Britannica a practical everyday help.

Go at once and see the different issues. You can leave your order at the same time. But this is **YOUR LAST OPPORTUNITY**—remember, when the last one of these remaining sets is sold you will **NEVER AGAIN** have an opportunity to buy this valuable work printed on genuine India paper.

Facts about the Britannica Proving its Usefulness

This great work is a complete survey of all knowledge.

Its 29 volumes contain 41,000 separate articles, covering every branch of human thought and activity.

It contains 500,000 indexed facts.

It is cosmopolitan in its viewpoint, unbiased in its presentation and authoritative in every particular.

It is the work of 1500 world-famous scholars and experts, each chosen because of his special knowledge of the subject he wrote about.

It could not be written today because the war would make it impossible to obtain from the contributors, who represented every civilized country, the same calm, unprejudiced view of national and historical subjects.

It deals with knowledge in the broadest, most practical way, making this knowledge usable for any purpose that knowledge is necessary.

It is written in an attractive, entertaining style which appeals alike to the business man, the woman of the home and the college professor.

It is a work that interests children, helping them in their studies and providing the foundation of a practical education.

It is owned and used by more than 175,000 men and women in all vocations, this number including more than 100,000 business men and women.

Only a few sets are left and when these are sold no more can be offered printed on genuine India paper. Therefore, it is

NOW OR NEVER if you desire a set.

Those who cannot go to the store may use this reserve order form, which will be legally binding upon us to reserve one set for you, just the same as if you ordered it in person.

Encyclopaedia Britannica, 120 W. 32nd St., N. Y.

Please reserve me a set of the "Handy Volume" Encyclopaedia Britannica, printed on genuine India paper. I enclose \$1.00 as first payment. Send me an order form which I agree to sign and return immediately.

ESTABLISHED IN 1820.

For many years to secure enlistments. On the Mexican border there has been much less complaint. The absence of scandal indicates that the boys were pretty well fed. The big armies now to be raised will present a greater problem for the quarter-master than was ever handled before. It will take a high range of executive ability to provide a wholesome and appetizing table for so many men.

It will pay to make the boys comfortable. The less their hardships, the more willingly they will do their bit. Patriotism thrives under difficulties, if it means raw food and lumpy beds.

The boys need pleasant recreations and some home like surroundings. They will be put through some stirring physical stunts, giving them perhaps all the athletics they need. It may not be necessary to organize baseball and football leagues to work off steam. But when the day's work is over, they need pleasant recreation tents where they can meet and form friendships and gain refreshment for another day. A good line of movie shows would do a lot to relieve the tedium of this hard working life.

Liquor and women always form a problem in connection with army camps and will need to be dealt with rigorously. If these boys are to be worthy soldiers of Uncle Sam, physically able to meet the tests of army life, the people who have money to make by encouraging vices must be kept at a distance. The churches and Young Men's Christian Associations have a great chance to provide wholesome facilities here for recreation, so that the boys will not be driven by dullness to seek diversion in harmful ways.

PRESS CENSORSHIP.

(Newark American Tribune.) At a time such as this there is need of great caution but there is also the danger of hysteria. Both of these things are manifest even in Congress, and especially manifest in the matter of press censorship.

It is actually proposed in Congress to give the postmaster general absolute authority to determine what comment is legitimate and to exclude from the mails any newspaper not conforming to its ideas.

Of course the general power of the government in time of war must be conceded, and as Congress is given the power to declare war it necessarily has all the other powers incident to its proper prosecution. Therefore it follows that whatever may be necessary to insure the proper prosecution of the war, furnishes legitimate occasion for the action of Congress.

To the extent that it is necessary to properly prosecute the war and to prevent the enemies of the government from obtaining information, which they desire, press censorship is desirable.

On the other hand it follows that there are many things which ought to be criticized, and some departments will be run better if subjected to a rigid scrutiny, and so far as internal mistakes are concerned they will be reduced to a minimum if the newspapers become familiar with them without hesitation.

The thing necessary to do at the time to determine between what is legitimate and proper, and what is not, is to have a fair and reasonable censorship.

FOUR-FOLD BENEFIT

From Two Grand Medicines in Spring.

You know that physicians often give two prescriptions, perhaps more, or medicines to be taken together, or alternately or at different times.

One reason may be that the medicines are "incompatible"—do not agree when closely mixed in taking—or that desired results cannot be secured by one medicine alone.

The most successful combination spring medicine treatment that we know of—because perfectly "compatible" and productive of the best results—is in Hood's Sarsaparilla and Pepsitron Pills. The former thoroughly searches out and expels impurities from the blood, while Pepsitron Pills give the powerful tonic—they literally "put iron into your blood."

Hood's Sarsaparilla should be taken before meals and Pepsitron Pills after meals—patients taking them so report the benefit is four-fold—prompt, positive, permanent. Both these medicines are economical and pleasant to take.—Advertisement.

The Advocate's TALKING POINT

When May, with cowslip-braided locks,
Walks through the land in green attire,
And burns in meadow-grass the phlox
This torch of purple fire;

Then from the jubilee I turn
To other Mays that I have seen,
Where more resplendent blossoms burn,
And stancher woods are green.
—Bayard Taylor.

And laughing Spring said, "Oh, you May!"

Well, Hardly Ever.

Aunt Caline says: Saturday I was fair breakin' my neck a-gettin' the Saturday's work out o' the way so's I could go to the Uplift Club in the afternoon an' here come Sheesa Guse jest as mad as a hen an' she had a newspaper into her hand an' says she, "Caline, read that!" she says, an' into it was a account of a party which she had gave fer her cussin's wife which was a-visitin' her an' it was all wrote out a-praisin' up the party to beet everything an' at the end it said, "An' the gests all went out to the dining-room to supper an' all we can say about that there supper is it was swill," which the newspaper had jest simply maid a little mistake fer what Sheesa had wrote out was "swell." "Well," says I, "next time, Sheesa," says I, "you take your articles to the Advocate," says I, "they don't searsely ever make no mistake," says I.

"Attention, Company!"

Dear Editor The Melting Pot.
I salute you today (under my newly acquired title as Major General, I. Gotmine, commander-in-chief of the sharp shooting brigade, attached to the grand old army of the M. P. I assure you sir, in this my first report, that our duties, so far, have been rather light, with just a shot fired now and then, all heavy artillery being held in reserve. I regret to inform you that my junior officer, Captain Bill, is becoming somewhat hard to manage, owing to the fact that he has too much time on his hands. Unless this can be remedied in some manner, I will be compelled as his superior officer, to relieve him of his arms. This is rather severe treatment, but I believe, with the loss of his arms, he will be unable to wear his wrist-

is vicious in the matter of criticism, and in the matter of the publication of news a happy mean must be found.

In this connection we commend to our readers an editorial found in the Newark Advocate on Friday last, which clearly distinguishes between these two propositions, and contains a very clear statement of the proper function of the newspaper and of the attitude of the public toward the publication of news at a time of national crisis.

KEEP BUSINESS GOING.

(Philadelphia Record.)

There is danger that the admonition to practice war-time economy may be taken too seriously. For instance, the suggestion that all women dress in khaki is too obviously absurd for consideration.

Waste should be avoided, of course, particularly waste in foodstuffs. But the prosperity of merchants, manufacturers and all their employees depends upon the continuance of a normal demand for the things they produce or sell. Lessened consumption means decreased production; and diminished production means unemployment and loss of wages for workmen and workwomen, as well as loss of profits for employers and dealers. The munition and supply factories, the farms, the railroads and the army and navy cannot give employment to all who have to work for a living; and all other activities of a nation are not suspended when it engages in warfare. These activities should be paralyzed by a too complete engrossment with military matters.

Pointed Paragraphs

The Berlin Vorwaerts, Socialist, urges the German government to forego a war indemnity. That is very considerate. The allies probably will did The Vorwaerts efficiently to that end.—New York World.

The under-sea commander can spot a hospital ship as surely as the German artillerymen spots a cathedral.—Sydney Post Standard.

Butter at 75 is the prediction. The weakest thing in the country at present seems to be the American dollar, and yet so many people are relying upon it for salvation.—Houston Post.

When the British Government decided to "do justice" to India, it gave India the tariff she wanted and announced the fact afterward to the people who did not like it. When will Lloyd George do the same by Ireland?—New York Evening Post.

It is a questionable "divine right" that is compelled to place all its reliance on so frail a craft as the U. S. mail.—Washington Star.

The name of the Lieutenant of the American gun crew which sank a U. S. boat contains a warning to all German submarines: B. Ware.—New York World.

The Prussian influence failed dismally in attempt to incite riots in the United States, and seems to have almost as much trouble keeping them down in Berlin and Essen.—Kansas City Star.

watch, which is by the way the whole sum and substance of our present difficulty. As this will be an official act, it will be necessary to make a note of it, putting down the occurrence, date, time and etc. But sir, I hesitate to put the time "down," because I know he will take advantage of it by appearing with that confounded watch strapped to his ankle and if he does, I will be worried to death for fear some desperado shoots him in the foot.
Respectfully,
Maj. Gen. I. Gotmine, M. P. A.

Thank Goodness.
The summer brings its cares and woes,
And heat and sport suits come and pass.
We have to sprinkle with the hose,
We have to cut the grass.

Though other troubles too appear,
It spurs us this without a doubt
The saddest wall of all the year,
"The furnace fire is out!"
—Columbus Monitor.

How blessings brighten as they go!
And when arrives the summer time,
Although reluctantly and slow
In this inconstant climate.

We then recall with fond desire
The pleasure of a winter's night:
The cosy room, the book, the fire,
As gnats and bugs we fight.

Ever Have One, Bob?

Middle age takes all the poetry out of life and we never saw anything in a poem about a bald spot wanting in the summer breeze.—Ohio State Journal.

The only advantage we have yet seen about a bald spot is that it gives an apparent excuse for a nightcap.

Hungry.
The moth is sad, he feels quite blue,
He surely has his woes,
He's bearing with a fellow who
Has but one suit of clothes.
—Luke McLuke.

In such a case, we think the moth
Would be quite justified
In taking dinner from the cloth
Right on the fellow's hide.

Did You Know

That the first of May—May-Day—has been from ancient times a festival? The outbreak into new life and beauty which marks nature at this time instinctively excites feelings of gladness and delight; hence it is not wonderful that the event should have been celebrated. Among the Romans, the feeling found vent in their Floralia, or Floral Games, which began on the 28th of April and lasted several days. Among the old Celtic people a festival called Beiltein was held on the first day of May. In England, as we learn from Chaucer, it was customary, during the Middle Ages, for all both high and low—even the court itself—to go out on the first May morning at an early hour "to fetch the flowers fresh."

Spirit of the Press

On The Way-To Victory.

Two years of bitter war brought Great Britain to conscription, with much difficulty and after prolonged struggling for the right principle of service and the method which wins success. The same goal has been reached in three weeks by the United States.—Cleveland Leader.

The Cost of the War.

Posterity will set a truer value what is passed along to it if it be called upon to help settle the bill. By all means, let us of today shoulder generously the financial weight of our war for the new birth of freedom but let us not deny wholly to our children and grandchildren the bond of unity and strength that will be found in the common opportunity to help pay the cost of their liberties in terms of present-day sacrifice.—Minneapolis Tribune.

Hysterical Economy.

This is no time for hysterical economy. We want no waste at any time, and particularly in war times. But if there be a cessation of those activities which make for substantial prosperity we shall create the very condition we are trying to avoid. There is good reason to believe that the war will bring greater prosperity, not only after peace is concluded, but during hostilities. The wealth of the United States is greater than ever before. We do not mean money, although we have more money than ever before for money is only a symbol. A dollar is only a medium of exchange, designed for convenience in trading our brain or muscle energy, our agricultural and industrial products. Our real wealth is in our resources, and these were never greater than now.—Memphis News-Scimitar.

Facing the alternative of joining the army or going to jail, the loafers may not find it so hard to realize that this is a fight for freedom.—Savannah News.

STUBBORN ECZEMA HEALED BY AMOLOX

The New Discovery for the Relief and Cure for Chronic Skin Diseases.

We are daily receiving letters of praise from persons who have been cured by Amolox. Many of them tell how, for years, they have tried different remedies and doctors in the vain effort to find relief. Some become discouraged and lost all hope of ever being cured. E. B. Brisher, 157 Syracuse street, Mansfield, O., writes: "Our baby's face was covered with eczema, scabs, sores and ulcers. She was a pitiable sight. We tried everything. Took her to Pittsburgh doctors, but were unable to find any relief until we used Amolox. It cured her within a short time."

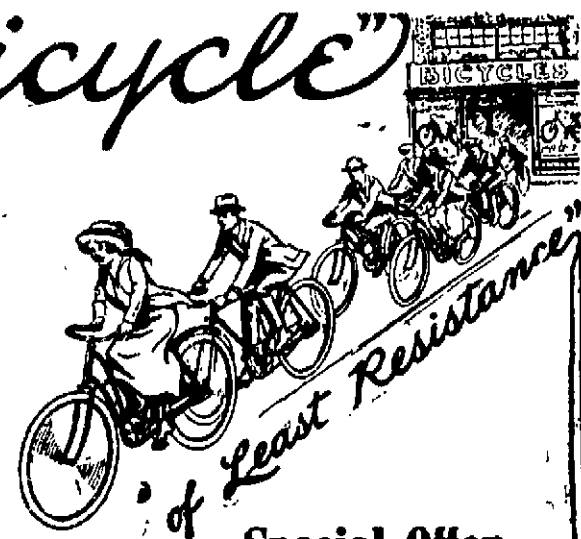

Amolox Ointment alone will quickly banish pimples, blackheads and take out all redness of the skin and cure most forms of skin disease. Bad, chronic cases of Eczema, Psoriasis, Tetter, etc., have been cured with Amolox. Amolox is a new and powerful medicine and liquid are used. Trial is free. T. J. Beane's Drug Store, Newark, guarantees Amolox and will refund the money if it fails to cure a skin condition. Send postal for free sample to Amolox Laboratories, Youngstown, Ohio. Advertisement.

Society

Mrs. Norris Swern was hostess to the members of the Social Welfare club and three guests, Mrs. William Kinkaid, Mrs. Shaw and Mrs. Finch, on the club day. Following a short business session a contest was enjoyed the prize winners being Mrs. Frank and Mrs. William Kinkaid. A number of piano selections were given by Mrs. John Stroup and Miss Marian Swern. At four o'clock a delicious luncheon was served. The club will meet in two weeks at the home of Mrs. Ray Peepers.

Westbrooke-Eaton.
The marriage of Miss Flora R. Eaton and Mr. Orville E. Westbrooke took place on Sunday evening at the parsonage of St. John's Evangelical church, Rev. Emil Kraft officiating. After the ceremony a wedding supper was served at the home of the bride to relatives of the bride and bridegroom. The bride is the daughter of Mr. and Mrs. John Eaton of Cedar street and the bridegroom is the son of Mr. and Mrs. J. L. Westbrooke and is a valued employee of the American Bottle Co. They will make their future home in Newark.

Miss Sarah Stasel returned to Cincinnati Conservatory of Music, after spending Sunday with her parents, Mr. and Mrs. A. A. Stasel of East Lucust street. Miss Stasel returned Sunday from Ithaca, N. Y., where she attended the national convention of the Sigma Alpha Iota sorority, a national musical honorary sorority. Miss Stasel attended the convention as the representative from the chapter at the Cincinnati school.

Miller-Rine.
Spring tulips in pink and white adorned the home of Mr. and Mrs. Stanley Miller in Poplar avenue on Monday evening when the wedding of Miss Zephia M. Rine of Coshocton and Mr. Paul F. Miller of Akron was solemnized at 9 o'clock.

The bridegroom is a brother of Mrs. Miller and the home was beautiful with the baskets filled with the chosen flowers and the ceremony was read in the archway which was filled with the pink and white flowers and palms. The only attendants were two little flower girls, Mildred and Dorothy Shuckhart, who wore lingerie frocks of white and carried bouquets. The bride wore a costume of blue taffeta and carried pink and white roses. The marriage service was read by Rev. Emil Kraft of the German Evangelical church.

Mr. and Mrs. Miller will be at home in Akron where the former is employed in the purchasing department of the Firestone Rubber company. Mr. Miller is the son of Mr. and Mrs. J. C. Miller of Prospect street. He is a member of the local Phi Sigma Chi fraternity and was graduated from the Newark High school with the class of 1911. Mrs. Miller is the daughter of Mr. and Mrs. D. W. Rine of East Walnut street, Coshocton.

All women interested in relief work are invited to the home of Mrs. W. C. Gardner, 516 Hudson avenue, on Wednesday afternoon, when a card party and tea will be given for the benefit of the American hospital in London 50 cents and shroud brdru nu France. Cards from 2 to 4 admission 5:30 a silver offering will be taken.

The Home and Foreign Missionary Society of the Zanesville Presbytery will meet in Utica on Thursday and Friday of this week, May 3-4. The Newark members of the society are asked to attend the train will leave at 7:55 in the morning and 1:50 in the afternoon for Utica and returning will reach Newark at 12:25 noon and 6:40 in the evening. An interesting program has been arranged with Mrs. Smith Ordway, and Miss Gertrude Schultz as speakers.

Feeling that the past year has marked an era in the success for equal suffrage in the state of Ohio, the members of the suffrage association are jubilant over the progress made and the plans continue for further concessions. The expenses incurred have been necessarily heavy, and in an effort to secure funds for carrying on the work and to celebrate the past successes all interested have been asked to contribute a dollar to the cause. The organization has styled May 1 as "dollar day," and those in Newark interested in the suffrage work are asked to contribute that amount to the Licking County Equal Suffrage association.

Sims-Garber.
On Sunday, April 22, at the home of the bride's parents, Mr. and Mrs. Daniel Garber, of Plains, Montana, the marriage of their eldest daughter, Miss Ruth Evelyn, to Mr. Fuller Krepps Sims, of Paradise, Montana, was solemnized. The ring ceremony was read by the Rev. B. V. Edworthy, pastor of the Congregational church. Only immediate friends and relatives were present. After the wedding dinner was served the couple left for the east.

Mr. and Mrs. Sims are now visiting his mother, Mrs. Anna L. Sims, at her home in Fairfield avenue. The bride is a charming and accomplished young woman being a graduate of the San Francisco School of Art. Mr. Sims is in the employ of the Northern Pacific Railway Company, but formerly worked for the B. & O. in this city.

A number of the friends of Searle Netters were entertained at his home in Park avenue on Monday evening, the event being planned as an informal farewell party. Mr. Netters leaves for the south as representative of the Dodge company and will be gone several months. The evening was devoted to eulchre and a luncheon of attractive appointments was served the following: Gerald Helmke, Fritz Drake, Albert Black, William Albright, Donald Helmke, Carl Meyers, Rudolph Schenk, George Morrison, Searle Netters and Edgar Albright.

A large party from Newark attended the dancing party given by the Knights of Columbus at Goldsquare.

Hall in Zanesville on Monday evening. The event was a delightful social affair and ices and punch were served during the evening. Among the Newark guests entertained were: Misses Bada Johnson, Irene Cosgrove, Betty Devlin, Lucille Callahan, Leah Ginter, Frances Bausch, Mary Neimeth, Hilda Oberfeld, Grace Dennison, Loretta Dolan, Clara Copenau, Messrs. Jack Cullen, George Pieri, Ted Devlin, Raymond Long, William Schenck, Neil Floyd, Devine Carroll, Carl Dunn, Edward Fallon, Dan Crane, John Kennedy, James Grady, Harry Shields and W. K. Rait.

FIFTY MEMBERS FOR THE RED CROSS ADDED MONDAY

The membership campaign for the Red Cross has been meeting with success and at this headquarters in the city more than fifty new members were registered on Monday. A system has been adopted whereby the industries of the city are placarded with the American Red Cross posters, and the membership blanks are left with the foremen of the departments so that the employees may be enrolled. In one concern it is reported out of 42 employees 41 yesterday enrolled in the Newark chapter.

SIX GIRLS WALK TO BUCKEYE LAKE SUNDAY

A hiking delegation composed of six young women from the Kresge store, Misses Iva Worley, Betty Rowe, Vesta Wilson, Alrene Danford, Elverda Madden and Minnie Beck, walked from this city to Buckeye Lake Park Sunday morning and enjoyed a picnic dinner at the cottage of Mrs. Proctor. The young ladies enjoyed the experience as well as the exercise and although impatient to give up and jump in the machine by a number of young gallants who had followed the hikers, they refused to do so and stuck gamely to the end. They are now arranging for a hike to Eagles Nest, along the national pike.

Obituary

Ross R. Fink.
Ross R. Fink, aged 14 years, son of Mrs. Edna Fink, died at his home one mile north of Hopewell at 8:30 o'clock Monday morning, following an operation for appendicitis. Besides his mother he is survived by two small sisters, both of the home. Funeral services will be held at the Mt. Olive church at 2 o'clock (sun time) Tuesday afternoon, with Rev. E. M. Larson of Newark in charge. Burial will be made in the church cemetery.

William Winco.
William Winco, one of the pioneers of Avoca township, died at his home Monday evening, last Saturday. The funeral services were held from the family residence on Monday.

William Winco, son of Joseph and Jane (Edwards) Winco, was born in Muskingum County, Ohio, October 17, 1837, being at the time of his death the age of 79 years, 6 months and 4 days. He was the oldest of the family of fourteen children.

In 1863 he went to Illinois and has been a resident of Avoca township for forty years.

On August 10, 1882, he was married to Luvena Jones, at Newark, Ohio, and since his marriage they have resided on their farm in Avoca.

He leaves to mourn his death his wife and two sons: Homer V. of Commiskey, Ind.; Emory C. at home and three grandchildren. He was preceded in death by two infants and Frank L., who died March 26, 1913.

He is also survived by four sisters and four brothers, who live in Indiana.

Mr. Winco's general health was good until a few weeks ago. He was up and about the house until last Friday morning. He was a kind and devoted husband and father and by his honesty won many friends. He leaves many relatives in and around Newark.

Today's Beauty Talk

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist a package of canthrox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt. After rinsing the hair dries quickly, with a fluffiness that makes it seem heavier than it is, and takes on a rich lustre and a softness that makes arranging it a pleasure.—Advertisement.

HOW TO REDUCE YOUR WEIGHT

A SIMPLE, SAFE, RELIABLE WAY

People who are overburdened with fat know only too well the discomfort and ridicule that overweight people have to bear. Yet, most fat people may easily reduce their weight by the new system.

If you are carrying around unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. Reduce your weight in a simple, safe and reliable way, without starvation diet or tire-some exercise. Spend some time daily in the open air, breathe deeply and get from the druggist a small box of oil of korein capsules, take one after each meal and one before retiring at night. Also follow the other simple directions. You may eat all you need if you chew your food thoroughly.

If you desire a test, free, of oil of korein, it will be sent you in plainly wrapped packet, with an interesting booklet, "Reduce Weight Happily," if you write to Korein Company, 2120 Arcade, East 28th Street, New York, N.Y.

Weigh yourself once a week so as to know just how fast you are losing weight, and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. A few days' treatment has been reported to show a noticeable reduction in weight, footprints become lighter, your work seems easier and more buoyant feeling takes possession of your whole being. Adv

A LIBERAL OFFER BY LICKING CREAMERY COMPANY

To the Users of Milk and Cream From Its Retail Wagons.

The Licking Creamery Company begs to announce that until further notice it will make a regular monthly award of two (2) \$1.00 sheets of milk tickets upon each of its retail milk wagon routes to private consumers of milk and cream throughout the city.

The awards will be made on the 15th day of each month. A duplicate receipt stub from every sheet of tickets sold during the preceding month will be placed in a box from which the stubs to receive awards will be drawn by a disinterested party. Each route will be handled separately.

THERE IS BUT ONE CONDITION QUALIFYING THESE AWARDS. All competitors must have their accounts with the Licking Creamery Company paid in full for the month preceding the one in which any given drawing occurs.

In other words, should a duplicate of one of your ticket receipt stubs be drawn on the 15th of one month it would not receive an award unless your account was paid in full for the month preceding.

This is absolutely the only requirement made, thereby characterizing this proposition as being extremely clean cut and liberal.

We hope it will please the public. Watch for the next drawing. Your name may be among the fortunate ones to be announced in the papers following the next drawing.

A LITTLE TALK ON POTATOES NOW \$3 A BU.

Potatoes seem to be in every person's mouth now whether they can afford to eat them or not. A man carries an ordinary size potato in his pocket, and exhibiting it says he can trade it for an auto. While he says the first cost of each is about the same, the upkeep of the potato is nothing. The potato will prevent the rheumatism and ward off other bodily ailments, while the average auto accelerates their occurrences.

A lad went into a grocery in a neighborhood town and asked for a gallon of Peruvian tubers of the Nightshade family. The old gentleman who had been the butt of many boyish pranks and jokes, picked up a large potato from the counter and replied: "I will just give you one right between the eyes, if you don't get out of here." The old gentleman spoke more wisely than he knew. The young man retorted: "That's just what I came for, spud away." A little later when it was ascertained that there was none missing, wounded or killed on either side, an armistice was announced from the front sidewalks, and the lad who rather enjoyed the near fracas was soon carrying his tubers home, whistling, "Marching Through Georgia."

The following old story might be repeated here for the benefit of erudites. A six year old girl had been in school scarcely a week when she instructed her younger brother at home, "Our teacher says we must not say 'taters' but 'potatoes'."

A wise man hearing that a very large percent of potatoes is starch and that cooking them bursts the cells and makes them mealy, advised his grandson who was a rather seedy looking old fellow, to eat plenty of them and become more starchy. The old gentleman retorted by advising the man to increase his eating fish.

The potato is a native of Peru, South America, hence the name: Spanish patata, English potato. Similarly calico was first made in Calcutta, muslin in Mossoul and artisan wells from Artols, where they were first drilled.

When growing in wild state potatoes were green in color, bitter, unwholesome and about the size of our chestnuts.

New varieties are propagated by planting the real seed, but we grow new crops by planting tubers that grow not on the roots but on underground stems and these tubers must have at least one bud or eye. Largest potatoes grow from that part of the tuber nearest the stalk. It is poor policy to continue to plant small potatoes for like begets like.

Seed potatoes were taken to Europe by Walter Raleigh and John Hopkins, possibly in the Sixteenth century and later grown so extensively in Ireland that they became known as Irish potatoes, just as our common grass, timothy, received its name from Timothy Hanson, who carried the seed from Massachusetts and other New England states where it had grown for years, to Maryland in 1720 and propagated it to such an extent that it has ever since bore his name.

A failure of a potato crop in some European countries now will produce almost if not quite a famine. L.

WOMEN STEADY WORKERS.
It used to be said that women could not be depended upon like men to work steadily, and, consequently, ought not to expect so much pay as men employed at similar work.

While it would be foolish for any young woman to stay at work when physically unfit, it is believed that most women now continue at their work as constantly as men. Any woman who is unable to do so should take Lydia E. Pinkham's Vegetable Compound, the old, reliable medicine for women, and get the aid she needs to enable her to keep at work.—Advertisement.

AUDITORIUM.

Manager Fenberg of the Auditorium will offer both today and tomorrow a picturization of Charles Dickens' immortal work of the French revolution, "A Tale of Two Cities" with the greatest cast of film stars, William Farnum, in the leading role.

William Farnum, the beloved idol of millions of movie fans throughout the world, plays a dual role in Charles Dickens' immortal story of the French revolution, "A Tale of Two Cities." Mr. Farnum's portrayal of the soft-spoken, aristocratic Charles Darnay and the devil-may-care, dissolute English barrister, Sidney Carton, is a screen classic.

Following is a brief synopsis of this wonderful story of heroic sacrifices. For many years preceding the French revolution, the people of France were the serfs of the arrogant aristocracy. Famine and starvation stalked throughout the land. Men and women were imprisoned on the slightest pretext. Dr. Alexander Manette, a French physician, was separated from his wife and baby daughter and secretly taken to the Bastille, because he was in possession of a secret involving the good name of the Marquis Evremonde, who was a terror of the court. Years he was kept in solitary confinement until he was rescued by Dr. Farnum, a former servant.

and swimming out of the picture triumphant.

The Smarter Set.
Lovers of mirth, melody and good singing, and to our credit can be said that they are legion, are looking forward to the appearance of the "Smarter Set," headed by Salem Tutt Whitney and J. Homer Tutt in a new two act musical comedy, musical comedy, entitled "How Newtown Prepared," which will be the attraction at the Auditorium next Monday. No colored comedians possess a more attractive personality or greater vocal accomplishment than do Whitney and Tutt. Their comedy vein has gained marvellously in strength during the past few years, but not at a loss of point, as is often the case when comedians strive for greater honors.

In "How Newtown Prepared," it is said that the word "comic" is used advisedly in connection with this musical comedy, and furthermore that it is through the wit and humor of the lines and situations, and not because of any buffoonery on the part of the fun makers.

The book is entirely new and up-to-date, tuneful original song numbers, specialties, spectacular features and novelties. Everything is brand new, scenic adornment and sensations calculated to appeal to the most blasé amusement seeker. The chorus consists of stunningly voiced crooners with excellent singing voices and magnetic charms who form a delightful background for the principals. Two performances will be given, seats going on sale Friday.

"The French Frolies."
A very, very busy show, plot, action, spice, dances and songs with a group of fascinating young beauties is what can be said of "The French Frolies," the musical burlesque sunbust with Harry "Fido" Jake Fields and Petite Lena Daley which comes to the Auditorium soon. "The French Frolies" will keep you awake the way, giddy, ginger girls turn night into day. The music sets hearts whistling a new Broadway favorite found. It's a brand new burlesque with more than its share of catchy, enchanting melodies, beautiful settings, gorgeous costumes, and an excellent company of singers and dancers. It's plain to see that the critics have fallen in love with "The French Frolies," so will you when you have seen it for it's just different from the rest and contains all the best has the go. Strikes 12 and is a sure fire hit. The cast has been selected with unusual care and includes such well known favorites as Walter "Funnegun" Parker, Mae McCrea, John O. Grant, Charles Chick, Ethel McDonald and Harry Morrissey, and is known as the speediest cast in burlesque. Soon to be seen at the Auditorium.

ALHAMBRA.
Tonight.
"I think," said Fannie Ward, with mock seriousness, "that every child should install as part of its educational system, a school for husbands, or a college for married men, with a curriculum for backsliders." The remark was brought about by Miss Ward's present Lasky-Paramount production, "The School for Husbands," in which she will be seen at the Alhambra tonight.

Wednesday and Thursday.
Can a woman marry a man for the purpose of being avenged on his brother and yet achieve the greatest happiness of her life from this marriage? This is the remarkable and startling theme upon which "As Man Made Her" is based. "As Man Made Her" will be shown at the Alhambra theater Wednesday and Thursday.

Would your skin stand this test?

The bright lights of an evening gathering show up mercilessly the defects of a poor complexion. But the regular use of

Resinol Soap

makes it as easy to have a naturally beautiful skin as to cover up a poor one with cosmetics. It lessens the tendency to pimples, redness and roughness, and in a very short time the complexion usually becomes clear, fresh and velvety.

In severe or stubborn cases, Resinol Soap should at first be used by a little Resinol Ointment. All druggists sell them.

Men with tender faces find that Resinol Shaving Stick prevents irritation.

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

PARISIAN SAGE

Helps to put Hair on Your Head and Keep it There—Fine for Dandruff.

Here's good news for men and women whose hair is falling, who are getting bald and whose scalps are covered with dandruff that nothing seems to keep away and whose heads itch like mad. W. A. Erman has secured the agency for Parisian Sage, a simple hair invigorator that is so certain in its tonic action and so sure of giving the limit of satisfaction, that they sell it with offer of money refunded if it does not abolish dandruff, stop itching head, and not only check excessive loss of hair but stimulate a new growth.

Parisian Sage is a delicately perfumed antiseptic liquid, which when massaged into the scalp goes right down to the hair roots and furnishes them with the nourishment that is lacking to make the hair grow and show more life and vitality. Parisian Sage not only stimulates hair growth, but beautifies it so that it is a favorite dressing of women who take pride in beautiful hair that appears much heavier than it really is. A large bottle is inexpensive. Advertisement

EARLY HISTORY OF JERSEY TOWNSHIP IN LAST CENTURY

(By F. E. Harrison.)

Jersey township was formed by dividing St. Albans township, according to some statements, but I doubt their correctness for the reason that it was a part of the United States Military lands set apart by the government at the close of the 18th century to redeem bounty claims given soldiers of the Revolutionary war. This land was surveyed and mapped out by the United States government, and Jersey township is shown as township 2 range 15.

These Revolutionary bounty claims were negotiable, and a man named Marsh secured claims covering 4,000 acres which he located in the northwest quarter of township 2, and divided it into 40 lots of 100 acres each.

The south half was taken through the land office at Chillicothe.

In February, 1815, Joseph Headley, Peter Headley, and a colored man camped on the south fork near the present village of Jersey, there built some kind of a habitable abode and made sugar.

Peter Headley went to the land office at Chillicothe and purchased the southeast quarter of section 24 for himself, and the northwest quarter for Richard Osburn.

Peter Headley during the spring of 1815 built a cabin on his land and moved into it in March, 1816, with his wife and two children, David and Elizabeth. He was the pioneer settler of Jersey township, but the first occupants of the cabin were Lewis Martin and others.

In May, 1816, Joseph Headley, wife and daughter Polly, and Sarah Parritt, joined Peter Headley and lived with him and his family in this cabin.

The first child born in Jersey township was William Headley in November, 1816. The Headleys came from New Jersey and first settled in Muskingum county.

Lewis Martin also of New Jersey with his father-in-law, Richard Osburn, and a brother-in-law, Mr. Vandegrift, with their families, and Mrs. Martin's brother moved to Jersey township in 1815 and lived in a cabin built by Peter Headley.

In about a month Martin built a cabin on the same land, this group comprising the very first settlers of the township.

In March, 1816, Michael Beem, a Revolutionary soldier, came, John Rhodes with his son and daughter arrived in May, 1815, and other early arrivals in 1817 from New Jersey were Samuel Williams and family, Abner Whitehead and family, Benjamin Parkhurst, Amos Park, a Virginian, Thomas Alberty, Elijah Meeker and family, David Meeker and family, David Peffers and family.

In 1815 came Onimus Whitehead, and Elias Williams with their families, Wickliffe Condit and family came in 1820.

Most of these early settlers were from New Jersey and they gave the name to the new township.

The township was organized in 1820, the first election being held under the supervision of Knowles Linnell, justice of the peace of Granville township. The first officers elected were Peter Headley, Richard Beem and Elias Williams, trustees; Amos Park, clerk; David Chadwick, constable; Enos Louis, treasurer; Charles Beardslee, lister; Josiah L. Ward, appraiser; Michael Beem, justice of the peace.

I recently noticed in an old Gazetteer printed in 1837, that two towns were projected in Jersey township—Jersey and Pleasantville.

What became of Pleasantville?

I only know of one Licking county official elected from Jersey township, Ira Condit, who served as commissioner in the '50's. He is still living and quite well at the age of ninety-three.

Use "Gets-It," Lift Corn Right Off

Shrivels, Loosens—and It's Gone!

"Just like taking the lid off—that's what it does to a corn. It gets it off your toe after it has been treated with the wonderful discovery, 'Gets-It.' Hunt the wide world over and you'll find nothing more magic, simple and easy as 'Gets-It.' You folks who have wringed

your toes in handkerchiefs to look like bunions, who have used salves that turned your toes raw and sore, and used plasters and would shift from their places and never 'get' the corn, and who have dug and picked at your corns with knives and scissors and perhaps made them bleed—just quit these old and painful ways and try 'Gets-It' just once. You put 2 or 3 drops on, and it dries at once. There's nothing to stick. You can put your shoe and stocking on again. The pain is all gone. Then the corn dries a painless, shriveling death. It loosens from your toe, and off it comes. 'Gets-It' is the latest selling corn remedy in the world today. There's none other as good.

'Gets-It' is sold by druggists everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Newark and recommended as the world's best corn remedy by T. J. Evans and W. A. Erman.

TAKE TONO-NERVE

IT'S THE NATURAL AND COMMON SENSE WAY TO GET WELL.

What you need is a tonic, not a lot of pills, powders, and other dope. Tono-Nerve puts power into your blood and vitality into your system so that you can throw off the poisons that have been circulating through your veins. Tono-Nerve is rich in iron, iron which increases the red corpuscles of the blood. It rids the system of poisons and impurities. It puts a keenness in your appetite that makes you relish your meals. It strengthens your stomach so that what you eat is quickly digested. To be weak and sickly is the most expensive thing in the world and if Tono-Nerve does not help you your druggist will refund your money. The City Drug Store, Newark, Ohio.—Advertisement. 5-1-3

IF FOOD DISAGREES DRINK HOT WATER

When food lies like lead in your stomach and you have that uncomfortable bloated feeling and your stomach is sour and burning it is usually because of excessive secretion of acid or food fermentation from chronic catarrh.

In such a case a good and safe treatment for catarrh of the stomach is to take before meals a teaspoonful of pure bisaturated magnesia in half a glass of water, as hot as you can comfortably drink it. The hot water washes the mucus from the stomach walls and draws the blood to the stomach while the bisaturated magnesia is a solvent for mucus, thus increasing the efficiency of the hot water treatment. More over the bisaturated magnesia, as physicians can tell you, is a powerful but harmless antacid which when taken after meals quickly neutralizes the excess acid and sweetness of your stomach contents.

This hot water and magnesia treatment is a far better plan than that of swallowing some pill or tablet which simply artificially digests your food and sends it still a sour, fermenting acid mass into the intestines where it will do almost as much harm as in the stomach.

As there are various forms of magnesia be sure in following above directions to ask the druggist for Bisaturated Magnesia (either in powder or tablet form) which is especially prepared for the correction of stomach acidity.—Advertisement.

KNIGHTS OF COLUMBUS HOLD PATRIOTIC MEET

A largely attended patriotic meeting was held by the Knights of Columbus in the club rooms in West Main street, Monday evening.

The event was arranged for the friends and families of the members and an entertaining program was prepared. Attorney Ray Martin opened the program with a short talk and introduced Rev. Father B. M. O'Boylan, pastor of St. Francis de Sales church, and Rev. Father Charles Waterson of the Blessed Sacrament church. Both gave very fine addresses.

A musical program was given by Miss Anna Riegger, pianist, and by a male quartet composed of Messrs. M. J. Back, Frank Ewald, John Garrity and Carl Meyers.

POLICE SEEK OWNER OF HORSE BLANKET TAKEN

An arrest on suspicion made by officer Ed Hurbough yesterday may determine the ownership of a horse blanket. If the owner will identify the property to Chief Sheridan.

The man arrested is John Bowman, who last fall was arrested for stealing a set of harness from William Connell, Jefferson street teamster. Officer Hurbough arrested Bowman and his explanation of the ownership of the blanket was not satisfactory, and he will be held the legal period on suspicion of having stolen it.

You can't always judge a man by his clothes. Many a non-union man wears a union suit.

CHIEF INDUSTRIAL MAN OF B. & O. SPEAKS THURSDAY

Dr. C. H. Manss of Baltimore, chief of the commercial department of the Baltimore & Ohio Railroad today telegraphed his acceptance of the invitation to be at the Chamber of Commerce annual dinner in Masonic Temple, Thursday night, when he will present the industrial survey of the Newark zone.

This survey was made by three experts headed by George C. Smith, formerly of the Alexander-Hamilton Institute of New York City. Several weeks were spent by Smith and his assistants, Messrs. Chatterton and Hartzell, collecting the data about Newark's industrial, civic and commercial conditions. The report covers 178 pages of valuable data which will be used in promoting Newark's growth. The survey was made in conjunction with the Chamber of Commerce and would have cost under ordinary circumstances \$1,500.

Dr. Manss is one of the best commercial speakers in the country. Before becoming an industrial authority, he was secretary of the Chicago Association of Commerce, the largest organization of its kind in the United States. With Dr. Manss, Fred C. Croxton of the Ohio Branch, Council for National Defense, and John F. Lent, President of the Pittsburgh Commercial Club, the program committee has provided three strong speakers who will interest and edify everyone present.

The dinner will begin at 6 o'clock sharp, and the dining hall will be thrown open at ten minutes of six to

enable everyone to be seated without confusion. No reservations will be accepted later than Wednesday night.

NEWARK WOMAN'S FOUR GRANDSONS ENLIST IN ARMY

Four grandsons of Mrs. Hugh Ewing of Granville street will enlist in the U. S. army. They are the sons of George Ewing of Lancaster, who is a member of the state civil service commission, and nephews of Mrs. C. W. Montgomery also of Granville street.

The young men are spending a few days at their home in Lancaster before their enlistment. Two of them, George and Hugh were students at the Holy Cross College, while Jack, the youngest, was a student at the Aquinas College, at Columbus. The other son is employed in St. Louis.

Their grandfather was General Hugh Boyle Ewing, a civil war major general.

DOCTOR SAYS NUXATED IRON WILL INCREASE STRENGTH OF DELICATE PEOPLE 100% IN TEN DAYS

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or worse with no result when their real trouble was lack of iron in the blood—flow to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European medical institutions, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night; others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical power and endurance. In such cases it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your flagging vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired."

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any Charitable Institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in the city by Wm. A. Erman and all good druggists. AN INVITATION FROM THE LICKING CREAMERY COMPANY

Every housewife should be interested in milk.
The cow is called the foster-mother of the world. Her existence is of all domestic creatures, the most intimately interwoven with the destinies and welfare of mankind.
She has early accompanied civilized man into all of his new fields of home-pioneering that, wherever he might be, neither himself nor his children would suffer for lack of her delicious and nutritious milk.
More and more complete becomes the recognition of the royal place occupied by milk as a human food. Science has of late given this great domestic product its warmest endorsement, with the proviso that milk be produced and handled under scientific and sanitary conditions.

We cordially invite the public to inspect our plant on Wednesday afternoon of each week and view our processes. Our retail solicitor, Mrs. Eva Southwick, will be in attendance for the purpose of escorting visitors through.

NEWARK FRIENDS PRESENT WATCH TO WRESTLING CHAMP.

Today at 11:30 o'clock, Paul Bowser, middle weight champion wrestler of the world, was presented with a handsome gold watch and chain by his admirers, the presentation speech being made by Mayor R. C. Bigbee in his office in the city hall in the presence of a large number of wrestling fans. The Newark mat artist, although visibly affected, responded in a fine speech of acceptance, promising to return again in the fall and renew his old acquaintances.

The watch is an open-face, solid gold case, seventeen-jewel movement, and is of handsome design.

PAUL BOWSER.

The chain is also solid gold, the present being the gift of hundreds of Bowser's friends. Paul Bowser has put this city on the wrestling map and he has proven upright and honorable in all his dealings. That is the reason he has a legion of friends.

The champion left today for Massillon, O., where he will join a carnival company for the summer season. He will return to Newark in the fall and promises to bring some high class wrestlers to this city. Bowser drove overland in a high power new touring car which he recently purchased. He has the best wishes of hundreds of local friends for a successful season on the road.

BOWSER LEAVES TO JOIN CARNIVAL FOR TOUR THROUGH EAST

Paul Bowser, Newark's wrestling champion is off for the summer season with the Polack Brothers "Twenty Big Shows" carnival troupe for a tour through Ohio, Pennsylvania, New York and the New England states. Bowser will have an athletic exhibition with the carnival troupe and in book-keeping a route through the east a good season's business is expected in the district where money has been made rapidly in the last few years. Hereabouts Bowser's attraction with the carnival companies has been a good drawing card. The organization he is with this year is said to have an unusually good list of entertainments.

FIRST NOONDAY LECTURE GIVEN BY DR. BROMLEY

The fourth week of the Bromley campaign began today. One half of the time for the revivals is over now and the clergy and party are well satisfied with the results thus far.

Beginning today, Dr. Bromley started a series of lectures for business men in the First Presbyterian church, on fundamental themes. The subject today was "Miracles."

Tonight the Macabees and the Business Women will attend the services in a body.

Tomorrow night the women's societies of the churches and the Knights of Pythias will turn out. Friday night the evangelist will give his amusement lecture. The students at Granville have decided to come down in a body to hear this lecture. On Friday the high school will attend the services in a body.

A special invitation is also being sent to the G. A. R. to attend the tabernacle services within the next few days, in a body.

The meetings at the tabernacle have been well attended during the past week and the building, in spite of the changeable weather, is kept very warm and comfortable on the cool nights.

The big chorus is rehearsing, especially this week, for a special chorus night when heavier numbers than have been used will be sung.

All the different departments of work are running on smoothly and it is believed that during the next few weeks great results will be seen at the tabernacle.

The afternoon services are largely attended and are increasing in interest daily while the Bible classes taught by Miss Rose Fetterolf are also being largely attended.

There was a business men's prayer meeting held this morning in the Newark Trust Building with a large attendance.

Next Sunday afternoon the evangelist will deliver his famous lecture on "Boys, Booze and the Water Wagon."

Tonight Dr. Bromley will preach at the tabernacle on the subject, "Sin, Society and the Devil." This promises to be a well delivered lecture on a vital topic these days.

The noon-day luncheon in the Bromley campaign began today in the First Presbyterian church and a large number of tickets have been disposed of not only for the first lecture but for the entire series.

SLAY HIGH OFFICERS OF RUSSIAN BALTIC FLEET

(Associated Press Telegram)
San Francisco, May 1.—How the higher officers of the Russian Baltic fleet at Heisingfors, the capital of Finland, were slain during the Russian revolution and how the admiral himself, though he had gone over to the revolutionist, was also killed, was related today by G. S. Westman, a ship builder, who has come here to purchase supplies.

"During the night of March 16 I was awakened by shooting in the street," he said. "Fighting continued for two days, the sailors of the Baltic fleet attacking their officers in their homes. I have heard estimates as high as 400 as the number of officers killed."

"Admiral Neppenin, one of Russia's ablest naval commanders, was among the killed, although he had gone over to the new government and was the man who arrested Governor General Seyn, later turning him over to the revolutionary chiefs. He was hated by the sailors. Leaving his ship the last day of the revolution he noticed a sailor did not salute him. He reprimanded him, whereupon the sailor shot the admiral."

"The sailors had lists of all the officers and their residences. They killed most of the high officers and spared the younger ones. The sailors did not harm a single civilian and maintained order in the city."

ENLISTMENTS HEAVY.
Cleveland, May 1.—All local enlistment records since the United States declared war on Germany were shattered yesterday. With conscription close at hand hundreds of men enlisted in organizations of their preference rather than delay and run the risk of being drafted into the regular army. Five hundred and twelve men applied and 264 were accepted.

CUTTING DOWN THE COST OF LIVING

THESE WOMEN HAVE SOLVED THE PROBLEM OF REDUCING EXPENSES

According to Mrs. John McDermott of 2334 Mountain St., Phila., Pa., who is the mother of three-year old Francis the best way to reduce the cost of living is by keeping healthy. Mrs. McDermott says that Father John's Medicine has saved her many doctor's bills and has kept her baby and the members of her family well and strong.

Many other mothers have found Father John's Medicine the safest and best family remedy because it

builds new flesh and strength, soothes the throat and helps to get rid of colds and coughs without using alcohol or dangerous drugs in any form.

"KEEPING BABY HEALTHY"

"My baby boy was pale and thin, and his food didn't agree with him but since I have given him Father John's Medicine he has good color and it has done him a world of good. I have given Father John's Medicine to my little girl, too, and it built her up." (Signed) Mrs. William Lee, 18 Monmouth street, Lawrence, Mass. Best for colds and coughs, no alcohol or dangerous drugs. All pure nourishment for those who are weak and run down.

BOWSER BUYS 1918 MODEL BUICK AUTO AT SPILLMAN AGCY.

About the first thing Paul Bowser did after his return from Houston, Texas, Sunday, was to close the contract with Spillman Brothers for a new Buick machine which he will use this season in his travels over the country with the carnival shows.

The new car is known as Model E-49, equipped with a 6-cylinder, 60-horse-power engine. It has a 7-passenger touring body painted a battleship gray with crimson wheels.

Bowser has driven a Buick model C-37 for the past two seasons and was well acquainted with Buick quality so did not dicker very long before making the purchase.

The Leonard Cleanable ONE-PIECE PORCELAIN LINED REFRIGERATOR

Can be cleaned in five minutes

You Can't Have Clean Food Unless You Have a Clean Refrigerator

YOU wouldn't of course, eat anything but clean food. Yet food cannot be clean that has been in an unsanitary refrigerator. A bad odor in your refrigerator is always a danger signal.

Zinc or galvanized iron linings for refrigerators are unsanitary. Even though coated with white paint or enamel, they soon get stained and discolored. Worse still, cracks and scratches develop which fill with grease and food particles. These germs are fostered causing a most unsanitary condition.

A Leonard Cleanable is made with a one-piece porcelain lining, smooth, pure white, unbreakable, just like a piece of china, except that it is unbreakable. This porcelain cannot possibly scratch, not even with a steel knife blade. It has no cracks or crevices in which grease or germs may collect. It is as clean as a china dish and as easily kept clean. Notice how the porcelain lining of the door is made in one piece. Look for the trade-mark shown below.

For your family's sake, turn about the Leonard Cleanable. We want to tell you its many good qualities. Call and get an interesting booklet, "The Care of Refrigerators." It contains many good points you ought to know.

neurasthenia

is a condition of nervous exhaustion. Worry, overwork, excesses, an attack of the grip—many things may cause it. Symptoms: Oversensitiveness, irritability, headache and a disposition to worry. The only way to feed undernourished nerves is through the blood.

Dr. Williams' Pink Pills for Pale People

are recommended in such cases because they are a non-alcoholic tonic and through the blood build up the weakened nerve cells. They also correct a tendency to anemia, usual in neurasthenia.
